

Lifecycle Experience Differentiator – Culture and Mission

The foundation for your **ComNet** customer lifecycle experience is our culture and mission. “Your Strategic ICT Solutions Partner” is not just a marketing slogan, it is a corporate culture that permeates the company and is manifested in each of our valued clients. Built on years of telecommunications industry experience and customer commitment, the **ComNet** team delivers on the promise of responsive ICT infrastructure and network performance management and client support at each stage of the customer lifecycle. Here is what it means to be a Strategic ICT Solutions Partner.

Your Strategic - Aligning business type, goals and objectives with information and communications technology infrastructure to drive business performance and sustain success.

ICT – The integration of information (computers/data) and communications (phones/voice) infrastructure and network to harness external forces of change, solve internal business challenges, meet employee and customer needs and leverage marketplace opportunities.

Solutions - Solve business communication and information flow challenges to drive business results, productivity, efficiency and customer response.

Partner - Deliver positive customer experiences through leading edge offerings, customer focused people, processes and systems at each client lifecycle touchpoint.

Mission

The ComNet corporate culture is grounded in our purpose and mission.

“It is the expressed purpose of **ComNet Solutions** to be a recognized leader in designing and deploying Information and Communications Technology (ICT) solutions for all sizes of business and organizations throughout Ohio.

Our mission is to help businesses achieve their corporate goals and objectives through ICT-business alignment while harnessing their greatest business challenges through innovative solutions, dedicated people and responsive services.

ComNet Solutions is focused on delivering technology and network solutions that help companies and organizations of all types compete aggressively and prosper in today’s volatile business climate.”
