

Yes . . .

There is an information and communications technology company serving the Columbus and Dayton marketplace that has a keen understanding of your business priorities and the experience to help you align your business technology to drive business performance and support business operations.

Solutions
ComNet
Strategic ICT Solutions Partner

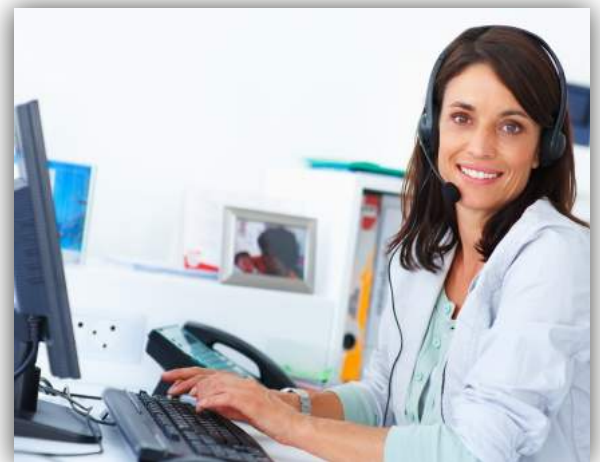

ComNet - A Strategic ICT Solutions Partner

It's easy to call your company a solutions partner, but **ComNet** thinks it's important to define that slogan and to deliver what it takes to meet that claim. Deploying telecommunications solutions since 1974, **ComNet Solutions** has evolved its business to include other information (computers/data) and communication (phones/voice) technology (ICT) systems and networks. Grounded with over 150 years of combined employee experience and customer commitment, **ComNet** brings a fresh new approach to business technology sales, design, implementation and management.

ICT Solutions Portfolios

ComNet Solutions has the resources and tools to effectively evaluate existing ICT infrastructures and communication networks. In addition, the ComNet team has the experience to design, install, implement and service a Solutions Portfolio targeted at meeting your top business priorities and harnessing your toughest business challenges. Rooted in Columbus, Ohio for over 30 years, **ComNet** is a leading solutions providers in the Columbus and Dayton marketplace.

Strategic, Most Trusted . . .

ICT Solutions Partner

Your Strategic

Being strategic means that **ComNet Solutions** has a keen understanding of your unique business priorities and challenges backed by a clear vision of how to deploy information (computers/data) and communication (phones/voice) technology to meet those challenges.

Most Trusted

ComNet Solutions delivers business application solutions that automate and integrate business processes, technology hardware solutions that empower people with information, and network solutions that provide universal access to the company's people, information, and products.

Solutions Partner

To **ComNet** being a partner means making and keeping commitments to support the technology and its users throughout its useful life cycle. **ComNet** deploys automated systems to support professional people in the delivery of innovative services.

Our Business Mission Supports your Business Priorities

It is the expressed purpose of **ComNet Solutions** to be a recognized leader in designing and deploying Information and Communications Technology (ICT) solutions for all sizes of business and organizations throughout Southwest Ohio. Our mission is to help businesses achieve their corporate goals and objectives through ICT-business alignment while harnessing their greatest business challenges through innovative solutions, dedicated people and responsive services. **ComNet Solutions** is focused on delivering technology and network solutions that help companies and organizations of all types compete aggressively and prosper in today's volatile business climate.
